

At Health Tech Enterprise we believe in improving healthcare through technology and innovation. We provide a full range of services to support the development and commercialisation of new healthcare solutions.

HealthTech INSIGHTS

Through our network of clinical and operational leads, we act as a constructive and independent advisor on the suitability and commercial viability of your product in medical practice.

HealthTech MARKETS

We understand healthcare markets in the UK and abroad, conduct technology specific market research. This helps clients identify the market opportunity and develop a successful market access strategy.

HealthTech IP and REGULATION

We understand and help manage Intellectual Property matters. We provide roadmaps to obtain regulatory approval and advise on commercialisation strategies for health technologies in the UK and abroad.

HealthTech ECONOMICS

Our team of professionally qualified and experienced health economists can support market access through health economic evaluations, understanding value proposition, economic impact and pricing.

HealthTech HUMAN FACTORS

Through the application of Usability Engineering processes, we help innovators to develop safe products that meet users' needs and regulatory requirements. This accelerates the adoption and spread of innovative medical technologies.

HealthTech MONEY

Whether it is grant funding or equity-based investment from angels and venture capitalists, Health Tech Enterprise has a highly successful track record in raising funding and investment within the Health Tech sector.

HealthTech EVALUATION

We evaluate the clinical, operational and financial impact of deployment of new technologies into healthcare settings. This provides valuable evidence and that will improve the deployment process and secure new customers.

HealthTech CONSULTING

We are uniquely connected with the NHS, medical technology industry, universities and governmental organisations, and provide advice and support to each of these key parties in the healthcare innovation landscape.

18 years of innovation 2004-2022
